Thanks for your response. I responded on the CBI side. I think we need to figure out the steps forward (i.e., update IRER, or go back to the company to get some questions answered)

Hi,

I appreciate your response. Please send the documents to ERG for review.
We are relying on the IH support from the contractor to help us out with our technical reviews.
I thought you were aware of that since you are the TOCOR and have sent TDs to ERG in the past.

Let's do that for future deliverables requiring IH support from ERG.
Thank you.

We are trying to plan next steps. Please provide an answer if we need to send documents to ERG for evaluation.
Thank you.

Hi

The company sent the protocol for monitoring the exposures at the plan.
Did you send this to ERG for IH review? Please reply to us by 10 am today.
Thanks.

Hello

There's a request from Ex. 6 Personal Privacy (PP) to work on this case as a priority. There was a DRM submitted early 2021 with inhalation monitoring data that needs to be reviewed and incorporated. You were the original engineer on this case and also the EOR this week. Can you pick it up and how soon do you think it can be done? If you would like ERG support, I recommend asking if they can work on this case today.

I would like to do a quick review.

[REDACTED] – looks like [REDACTED] was the original HH assessor so that will need to get re-assigned.

Not sure what you mean. We would require respirators any time someone handles this as the dusty solid material.

As far as I can tell no review of the exposure monitoring data or update to worker exposure assessment. So everything needs to be done.

I did see a total of 5 engineering reports for this case. [Ex. 6 Personal Privacy (PP)]

[Ex. 6 Personal Privacy (PP)] will probably want to know what still needs to be done. Did anyone review the exposure monitoring data?—
does it change our worker exposure assessment?

Ex. 6 Personal Privacy (PP) — I just spoke with the technical contact for these PMNs. They are going to write a letter to their Senator as the current delay in these PMNs will adversely affect their new \$2.6 billion plant in Georgia. We can expect the letter to be sent by the end of next week.
